

It has been our pleasure to have had Phoenix Power- Vac company do serious duct cleaning at several of our facilities, ranging from simple elementary schools to larger more complex school buildings with various air handling systems ,some of which are older style and some with newly constructed systems all of which required attention.

The Phoenix Power-Vac crew came in, and with little guidance needed ,proceeded to accomplish the task . They did the job with people in the buildings with a minimum of disturbance . They did very good work and were able to be left to do the work that was needed, in a very professional manner.

I feel confident that the cost of the work will be paid for in increased efficiency of the heating and ventilation systems .

They documented the work done, with before and after pictures, and recommendations, for our maintenance files.

Thank you Phoenix power –Vac .
